Licensed Architect with end-to-end experience from design to construction documentation, specializing in K-12 educational facilities while expanding into residential and commercial design. Skilled in Revit, and BIM coordination, with a strong understanding of building systems, codes, and project delivery. Committed to continuous professional growth, innovative problem-solving, and delivering high-quality design solutions.

Work History

2026-06 – Present

Project Architect

Stratus (Formerly Known as Zyscovich), Tampa, FL

Focus: K-12 Educational Facilities

- Produced construction documents and permit drawings for K-12 educational facilities from design development through construction administration.
- Coordinated architectural, structural, MEP, and civil consultants to deliver coordinated construction document packages.
- Developed detailed Revit models and maintained BIM documentation throughout project lifecycles.
- Reviewed shop drawings, submittals, RFIs, and field reports during construction administration.

2024-05 – 2026-06

Architectural Designer

Stratus (Formerly Known as Zyscovich), Tampa, FL

Focus: K-12 Educational Facilities

- Contributing to the coordination of project documentation, gaining insights into project management and resource allocation.
- Produced 3D-printed models of projects for contractors and school board directors to showcase past work and support ongoing relationship-building and marketing efforts.
- Assisted in RFI's, including researching Florida Building Codes, preparing responses, and updating BIM models and narratives.

2023-05 – 2024-05

Architectural Intern

Stratus (Formerly Known as Zyscovich), Tampa, FL

Focus: K-12 Educational Facilities

- Contributing to the coordination of project documentation, gaining insights into project management and resource allocation.

2021-06 - 2023-04	Project Coordinator <i>Gresham Smith, Tampa, FL</i> <i>Focus: Commercial Retail</i> • Used various software tools to create drawings, renderings, and models that accurately represent the design intent of the project. • Worked closely with architects to assist in the design development process, including researching materials, modeling in BIM, and contributing to design discussions. • Researched building codes and regulations to ensure that designs comply with local and national requirements.
-------------------	---

Licenses and Certifications

2026-06 – Present	Registered Architect Licensed in the State of Florida; License #AR104983
2016-12 – Present	Real Estate Sales Licensed in the State of Florida; License #SL3374458

Education

2022-08 – 2024-05	Master of Architecture <i>University of South Florida - Tampa, FL</i> Thesis Project: Exploring viability of denser urban environments near cities for affordable housing for the commonwealth.
2017-05 - 2021-05	Bachelor of Design: Architecture <i>University of Florida - Gainesville, FL</i> Minor in Landscape Architecture
